

#### Reservation Page:

- There will be the name of the accommodation being booked at the top of the page.
- Fields to enter information about the data. Some fields will require being filled for the form to submit.
- A button to submit the entered information.

Once the submit button is clicked, an email containing this information will be sent out to the owner/manager of the relevant accommodation to inform them of the request. Extra information such as the reply-to email address, requesting authority, and requesting individual can be drawn from the user's profile at the time of sending.
